DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

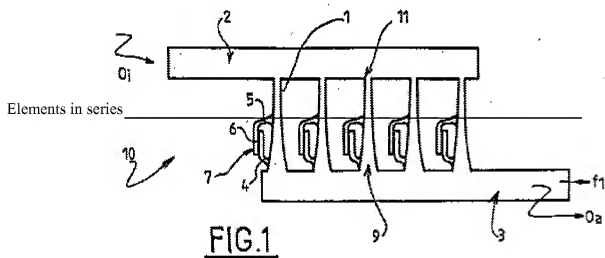

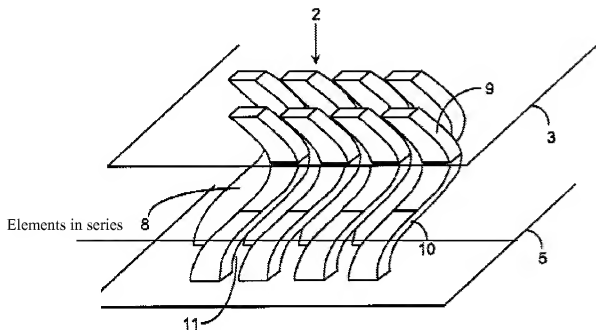

2. Claims 1, 3-6, 13, 14, 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Capdepuy et al. (US 6,068,081).

Capdepuy et al. teach a device to filter and damp the vibrations between a first element subjected to an incident vibratory wave (3) and a second element radiating a filtered vibratory wave (5) wherein the device comprises a plurality of interfaces structures (10) each mounted in series between the first and second elements that transfers vibratory energy constituted by at least one elastic component and at least one dissipative component attached in parallel to the elastic component to filter and dampen over the incident vibratory over a frequency and a mechanical load amplitude that is applied to the interface structure.

Response to Arguments

3. Applicant's arguments filed March 12, 2009 have been fully considered but they are not persuasive.

The interface structures (11) of Capdeuy are mounted in series to the same extent as applicant's invention.

The arguments with respect to Fig. 8 of Capdepuuy are not relevant as it does not refer to the same embodiment as the relied upon Figure 3 referenced above.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
